

# Boundaries of Crofts on Port Henderson Crofting township centred on NG 7542 7379

## Port Henderson Croft Plan

Port Henderson was created by Gairloch Estates in 1845. It succeeded an earlier fishing village which had been established here by the estate in 1815.

A passage is a right of way for access, and an apportionment is part of the common grazing that has been allocated to a croft for its sole use.
