

Plan of Croft 12 known as 'Lota Rodaidh See'
Port Henderson
Centred on NGR NG 7562 7385

Croft 12, Port Henderson.

The S section of this croft with apportionment is used for two houses with outbuildings and landscaping. The N section is unused with the ground being very wet despite numerous drainage ditches. It slopes gently from SE to NW towards the beach at the NW.

The 1st OS shows two roofed buildings and the 2nd OS the same two joined together. Today the smaller building has been demolished and the original house modernised and extended with some of the demolished stone used to build newer stone walls.

There is no evidence of the well marked on the 1st and 2nd OS.

The original house
modernised and
extended

Some of the new walling
around the house.
